## 23. In an effort to be environmentally responsible I do the following

# How do I get started?

1. Problem - Where are you going?
  - a) Add a summer 1 week camp
  - b) Develop ongoing programming
2. Materials - Who is your audience?
  - a) Learn to Sail
  - b) After school
  - c) Teens
3. Design -Make a plan
  - a) Content
  - b) Schedule
  - c) Budget
4. Test – Evaluate
5. Redesign

# 5 Day Summer Reach Camp

	<b>Monday</b> Measuring Wind	<b>Tuesday</b> Buoyancy	<b>Wednesday</b> Sail Area and Perimeter	<b>Thursday</b> Upwind Sailing	<b>Friday</b> Wind Power
<b>AM</b>	Water Safety Module 1: Parts 1, 2, & 3 Parts of the Boat & Rigging	Module 2 Parts 1 & 2 Rigging Review Part IV	Module 3 Parts 1,2, & 4	Module 7 Parts 1, 2, &	Module 9 Parts 1& 2
<b>PM</b>	Module 1 Part 4 Points of Sail & Go Sailing! (Reaching)	Afternoon Go Sailing! (variety of boats) Discuss buoyancy & collect and compare wind speed data	Module 3 Part 3 Go Sailing! (Upwind)  Reefed or RAD sails	Module 7 Part 3 Go Sailing! (Tacking)	Module 9 Part 3 Go Sailing! (Finding the Groove)  Identify local trends in wind speed and direction
